

HARSH

TYRES & RETREADERS

Harsh Retreaders is a prominent tyre retreading company in North India, serving the region since 1993. Based in Faridabad, Haryana, we operate a state-of-the-art retreading facility at Pali, managed by highly skilled technicians. We specialize in retreading tyres of all sizes using both hot and cold processes. Our expertise includes providing retreading solutions for both on-road and off-road (O.T.R.) tyres, including those used in earth-moving machinery, with a focus on rapid turnaround for demanding applications.

COMPREHENSIVE RETREADING SERVICES

- **Tyre Retreading:** We retread tyres of various sizes including, but not limited to, 10x20, 11x20, 14x25, 14x24, 13x24, 17.5x25, 18x25, 23.1x26, 23.5R25, 26.5R25, 18.00x33, 20.5x25.
- **Retreading Processes:** Offering hot and cold retreading processes.

We specialize in retreading tires for heavy-duty machinery, including Reach Stackers, Boom Lifts, Scissor Lifts, Forklifts, Loaders, Graders, and Earthmoving Equipment. Our expertise ensures durable, high-performance tires that enhance the lifespan and efficiency of your machinery.

UNMATCHED

PRODUCTION CAPACITY

.....

Every year, Harsh Retreaders retreads approximately 12,000 tyres, utilizing over 500 tonnes of retreading material. This extensive operation establishes us as a leader in tyre retreading, supporting various public and private sectors across India.

ECONOMIC & ENVIRONMENTAL BENEFITS

Economic Efficiency

Retreading saves up to 70% of a tyre's cost by reusing its casing, which is designed to endure high pressure, temperature, and impact. By replacing only the tread, retreading maximizes the investment in a tyre while promoting recycling.

Quality and Safety

With advanced technologies and materials, our retreaded tyres offer durability and mileage comparable to new tyres.

TRUSTED BY INDUSTRY LEADERS

Public Sector

We serve government entities like the Ministry of Haryana Roadways and Transport Authority.

Logistics Powerhouses

We support logistics companies such as Hind Terminals and Jawaharlal Nehru Port Trust

Infrastructures Giants

Major players like L&T and Afcons Infrastructure rely on our retreading services.

NATIONWIDE REACH & DELIVERY

1

Central Hub

Our Faridabad headquarters coordinates operations across India, ensuring efficient service delivery nationwide.

2

Dedicated Marketing Team

Our expert team understands client needs and provides tailored solutions for every retreading requirement.

3

Timely Delivery

Our fleet of delivery trucks ensures prompt service and product delivery to clients across India.

TECHNOLOGY

We use advanced equipment from reputed manufacturers in Bangalore, Delhi, and Kerala. This technology enables the repair and retreading of tubeless Earth Mover tyres, maximizing the tyres' crown width and ensuring optimal ground coverage for better mileage.

PRODUCT OFFERING

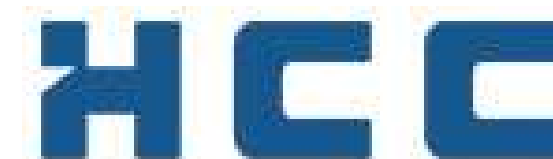

In addition to retreading services, Harsh Retreaders provides high-quality retreaded tyres of all sizes at competitive prices, offering a cost-effective alternative to new tyres.
